SUMMARY

Machine Learning Engineer with expertise in AI, IoT, Industry 4.0/5.0, and distributed cloud architectures. Proven ability to translate high-impact research into prototype solutions and advanced architectures

LANGUAGES

German B2 ●●●●●

English C1 ●●●●●

SKILLS

Programming
Languages:Python(Pandas, NumPy, Scikit-learn), SQL

Data Visualization: Matplotlib, Seaborn Power BI

Machine Learning:Sklearn TensorFlow

Statistical Analysis: Hypothesis Testing, Regression Analysis, A/B Testing

Big Data Ecosystems:Hadoop, Spark(basic knowledge)

Databases: MySQL, MongoDB

Tools:Jupyter Notebook, PyCharm, Spyder, VS Code

Version Control Systems (VCS):Git

Operating Systems:Windows, Linux

Agile Methodology:Scrum

Cloud Platforms:Azure (basic knowledge)

Deep Learning
Frameworks:Keras,PyTorch
TensorFlow

EXPERIENCE

ML Engineer

2024

Omdena

New York ,USA

- Collaborated with customers to define and analyze product use cases, ensuring alignment with business needs.
- Performed EDA and created visualizations with Matplotlib and Seaborn to communicate key insights to stakeholders.
- Developed and validated machine learning models and algorithms using Scikit-learn, optimizing through cross-validation and tuning.
- Contributed to a Streamlit web app, integrating models for real-time predictions and ensuring a smooth user experience.
- Collaborated in Scrum meetings, documented processes, and presented findings, receiving positive feedback from the sponsor.

Data Scientist

01/2019 - 05/2021

Tata Consultancy Services

Trivandrum ,India

- Improved solution efficiency by 30% using Python to solve challenging analytical problems
- Improved team productivity by 15% by providing support and guidance in collaborative projects
- Developed software that automatically adjusts to fit different screen sizes on desktop and mobile operating systems
- Skilled in source code management and possessing strong practical experience in web development
- Led Scrum development practices maintaining on-time milestone achievement

Data Scientist Trainee

03/2018 - 01/2019

Activeloga Lifescience Innovations Pvt Ltd

Trivandrum ,India

- Increased efficiency by 30% by deploying calculation-capable chatbots on Microsoft Azure using trained datasets.
- Implemented business intelligence solutions to increase operational efficiency
- Possess hands-on experience in installation, configuration, and testing of various components within Hadoop ecosystem

Junior Data Scientist

10/2017 - 01/2018

Atwic Research and Development Pvt Ltd

Trivandrum ,India

- Improved image classification accuracy by 15% using OpenCV Python and Deep Learning techniques.
- Enhanced development efficiency by 15% through expertise with Python IDEs, including Jupyter Notebook and Tkinter.
- Possess practical knowledge in utilizing TensorFlow as a backend for a range of projects

EDUCATION

Master of technology: information technology

07/2015 - 04/2017

School or University

Kochin,India

- Master Thesis: Incremental Model For Analyzing Mobile Reviews On

Bachelor of technology: information technology

07/2011 - 05/2015

School or University

Kochin,India

- Bachelor Thesis: Filtering of Online Social Network User Walls

SKILLS

Large Language Models (LLMs): GPT-3, GPT-4, Google Gemini

Tools & Frameworks: OpenCV
HuggingFace, LangChain, OpenAI API

HOBBY

- 💎 Solving complex puzzles and developing strategies, such as chess or logic games
- 💎 Participation in debate clubs or discussion groups
- 💎 Quick to learn and adjust to new technologies, processes, and challenges in dynamic environment

PROJECT LINKS

Identifying Potential Areas for Urban Agriculture in Milan, Italy.
