🔗 <https://swaty06.github.io/portfolio/#home> 📍 Stuttgart

SUMMARY

Data Scientist with Python, machine learning, and data analysis, with a particular interest in applying data science to solve challenges and support technology-related assessments

EXPERIENCE

Data Scientist

Omdena 📅 05/2024 - 10/2024 📍 New York ,USA

- Applied machine learning models to solve complex healthcare and wellness challenges, such as predicting patient outcomes and analyzing medical images, providing a strong foundation for similar wellness and medical data tasks
- Developed and deployed deep learning solutions using PyTorch and TensorFlow for image classification, object detection, and segmentation tasks, implementing CNNs and transfer learning techniques to achieve production-ready performance across industrial use cases.
- Delivered end-to-end ML solutions following software engineering best practices, including clean code principles and design patterns
- Architected production-ready ML pipelines using Python with object-oriented design patterns and functional programming paradigms
- Designed and deployed NLP and Generative AI solutions including entity recognition, text classification, and Retrieval-Augmented Generation (RAG) pipelines using Hugging Face Transformers and OpenAI APIs.
- Collaborated with international, cross-functional teams to translate business requirements into technical implementations and mentored peers on machine learning best practices, code review, and deployment workflows.

Data Scientist

Tata Consultancy Services 📅 01/2019 - 05/2021 📍 Trivandrum ,India

- Improved solution efficiency by 30% using Python to solve challenging analytical problems
- Employed statistical techniques and machine learning algorithms for regression, classification, and clustering tasks
- Developed software that automatically adjusts to fit different screen sizes on desktop and mobile operating systems
- Skilled in source code management and possessing strong practical experience in web development
- Led Scrum development practices maintaining on-time milestone achievement

Data Scientist Trainee

Activelogica Lifescience Innovations Pvt Ltd

📅 03/2018 - 01/2019 📍 Kochin, India

- Increased efficiency by 30% by deploying calculation-capable chatbots on Microsoft Azure using trained datasets.
- Implemented business intelligence solutions to increase operational efficiency.
- Possess hands-on experience in installation, configuration, and testing of various components within Hadoop ecosystem.

Junior Data Scientist

Atwic Research and Development Pvt Ltd

📅 10/2017 - 01/2018 📍 Kochin, India

- Improved image classification accuracy by 15% using OpenCV Python and Deep Learning techniques.
- Enhanced development efficiency by 15% through expertise with Python IDEs, including Jupyter Notebook and Tkinter.
- Possess practical knowledge in utilizing TensorFlow as a backend for a range of projects.

LANGUAGES

German B2 ●●●●●

English C2 ●●●●●

SKILLS

Programming Languages: Python (Pandas, NumPy, Scikit-learn) SQL

Data Visualization: Matplotlib Seaborn Power BI

Machine Learning: Sklearn TensorFlow

Statistical Analysis: Hypothesis Testing, Regression Analysis A/B Testing

Big Data Ecosystems: Hadoop Spark (basic knowledge)

Databases: MySQL MongoDB

Tools: Jupyter Notebook PyCharm Spyder VS Code

Version Control Systems (VCS): Git

Operating Systems: Windows, Linux

Agile Methodology: Scrum

Cloud Platforms: Azure AWS (Sagemaker) GCP

Deep Learning Frameworks: Keras PyTorch TensorFlow

Large Language Models (LLMs): GPT-3 GPT-4 Google Gemini Llama Claude

EDUCATION

Master of technology: Information Technology

Rajagiri School of Engineering and Technology

📅 07/2015 - 04/2017 📍 Kochin, India

- Master Thesis: Incremental Model For Analyzing Mobile Reviews

Bachelor of technology: Information Technology

Rajagiri School of Engineering and Technology

📅 07/2011 - 05/2015 📍 Kochin, India

- Bachelor Thesis: Filtering of Online Social Network User Walls

PROJECT LINKS

Customer Churn Prediction

Travel AI Agent

 [View Project](#)

SKILLS

NLP Tools & Frameworks: HuggingFace
LangChain OpenAI API NLTK RAG

MS Office: Word PowerPoint Excel

HOBBY

Solving complex puzzles and developing strategies, such as chess or logic games

Participation in debate clubs or discussion groups

Quick to learn and adjust to new technologies, processes, and challenges in dynamic environment
